

Digiclean

# Company Profile

**Custom Solutions for Data Centres  
and Critical Infrastructure**

# Who We Are

We provide top-tier solutions for strategic procurement and maintenance of digital assets tailored for Data Centers and Critical Infrastructure. Our comprehensive support extends across the entire lifecycle of digital infrastructure, guaranteeing resilience and maximising utilisation.

## Our Values

### Client Centricity

Client centricity is key in everything we do. We always put the client first.

### Excellence

We use our energy, skills and resources to deliver the best results possible.

### Stewardship

We are passionate about leaving things better than we found them.

# Service Offering

## Data Centre Infrastructure Procurement Solutions

We provide comprehensive assistance to our clients by offering strategic procurement, distribution, and after-sales services for Critical Power, Thermal Management, Racks & Enclosures, Monitoring and Management, as well as a variety of Project and Digital Services.

## Maintenance Services

Digi-clean provides an extensive array of tailored preventative and corrective maintenance solutions, carefully crafted to meet the specific requirements of each client. Our team of experts ensures that every solution is designed to optimise performance, enhance reliability, and extend the lifespan of your equipment.

## Managed Services

Digiclean supplies clients with engineers and technicians who assist in the day-to-day management and monitoring responsibilities of their digital infrastructure.

## Data Centre Operations Training

Our comprehensive program is designed to equip IT professionals, data centre managers, and aspiring experts with the knowledge and skills necessary to manage and operate data centres efficiently. In today's digital age, data centres are the backbone of IT infrastructure, and proficient management is crucial for business success.

## Soft Facilities Management Services

We offer comprehensive soft facilities management services, encompassing tasks such as facilities cleaning and catering, to our clients. This allows them to focus on activities that generate higher value.
